

School Cyber Safety Hub

What is the Hub

A comprehensive cyber-safety hub providing all the support, education and resources your school community will require to create a productive and safe online environment for everyone.

By signing your school up to the Internet Safe Education Cyber-safety Hub for schools you will be providing your Students, Teachers, Staff and Parents with world leading, time effective and achievable strategies. This is a comprehensive cyber safety solution.

Internet Safe Education has been delivering cyber safety programs since 2008 and is a Trusted eSafety Provided with the Office of the eSafety Commission.

We appreciate every school community is different. Our cyber safety hub is there to support all school communities and their members both primary and secondary whilst accommodating your school's unique or specific characteristics and requirements.

School Cyber Safety Hub

More about what subscription includes

Student Course

An Australian Curriculum aligned 5 module cyber-safety course for students including 5 high-end videos and coupled with a teacher resource and student workbook. The course is aimed at Upper Primary through to Lower Secondary aged students.

Parent and carers course

A five module cyber safety parenting course with dozens of downloadable tools. This is the only course of its type. There are 4 separate courses that cover children from young primary through to older teenagers. This can be made available to your entire parent, carer and teacher community for 12 months.

Teacher Resource Library

Lesson plans with teacher resources for Prep through year 12. Dozens of actionable and targeted tools covering device contracts in the home, conversation starters, privacy settings, victim indicators and much more.

Live parenting Webinars

Member schools will have exclusive access to two live 40 minute parenting webinars per term (8 per year). Relevant and current topics will be the focus and will be hosted by Brett Lee and other cyber safety experts in the field. This will also provide members the opportunity to ask the host specific questions relevant to their family.

Webinar Library

Can't make it to the live webinar, all webinars will be available 24hrs a day for members to review at their convenience in the Webinar Library.

Live PD Webinars

Member schools will have exclusive access to 1 live 40 minute teacher/staff webinars per term (4 per year). Relevant and current topics will be the focus and will be hosted by Brett Lee and other cyber safety experts in the field. This will also provide attendees the opportunity to ask the host specific questions relevant to their school community.

Articles and App Reviews

Members will have access to Internet Safe Education's comprehensive library of articles written by leading cyber safety experts that cover all types of apps, websites, issues, games and social media.
